

The background of the slide features a large, semi-transparent Arsenal club crest. The crest is circular with a red background and a blue border. It contains a white cannon wheel in the center and the word 'Arsenal' in white capital letters at the top.

Arsenal

Arsenal's Attacking Analysis - First 11 Games

(Data From FBref)

- Goals
 - Scored And Conceded Goals
 - Goals Compared Over 2 Seasons
 - Goal Scorers
 - Minutes Goals Scored
 - Goals And xG
- Shots & SoT
 - Shot Taker
 - Shot Foot
- Touches
 - Who Has Most Time On The Ball
 - Carries And Total Distance
- Overview

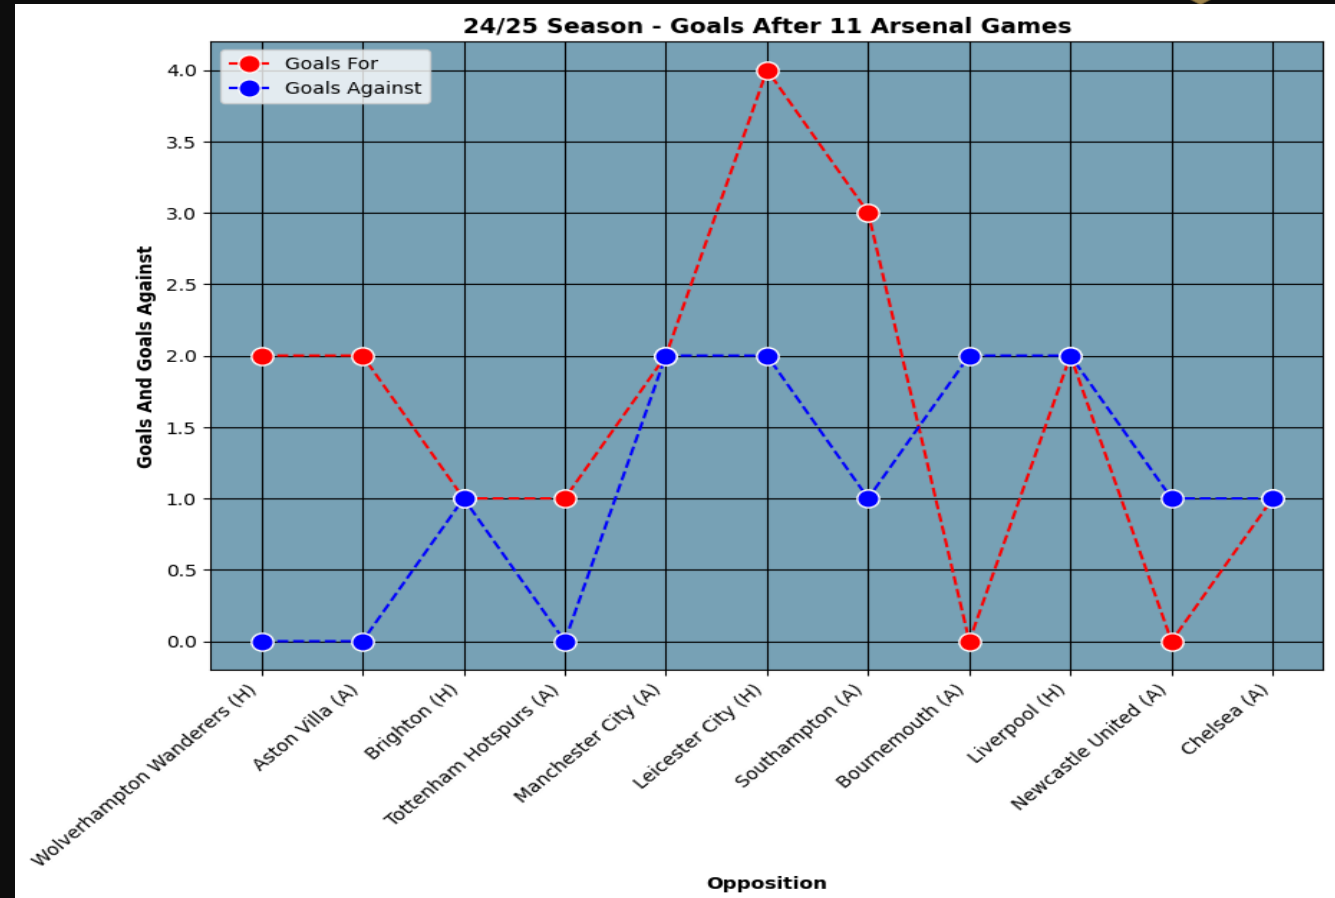

- Topic - Current Season :
Scored And Conceded Goals

- Focus On Goals Scored And Conceded Leading Up To The Winter International Break

- Deduction Of Data

- When Scoring : Either Equal Or Outscores The Opposition
- Only Twice Have Not Scored A Goal

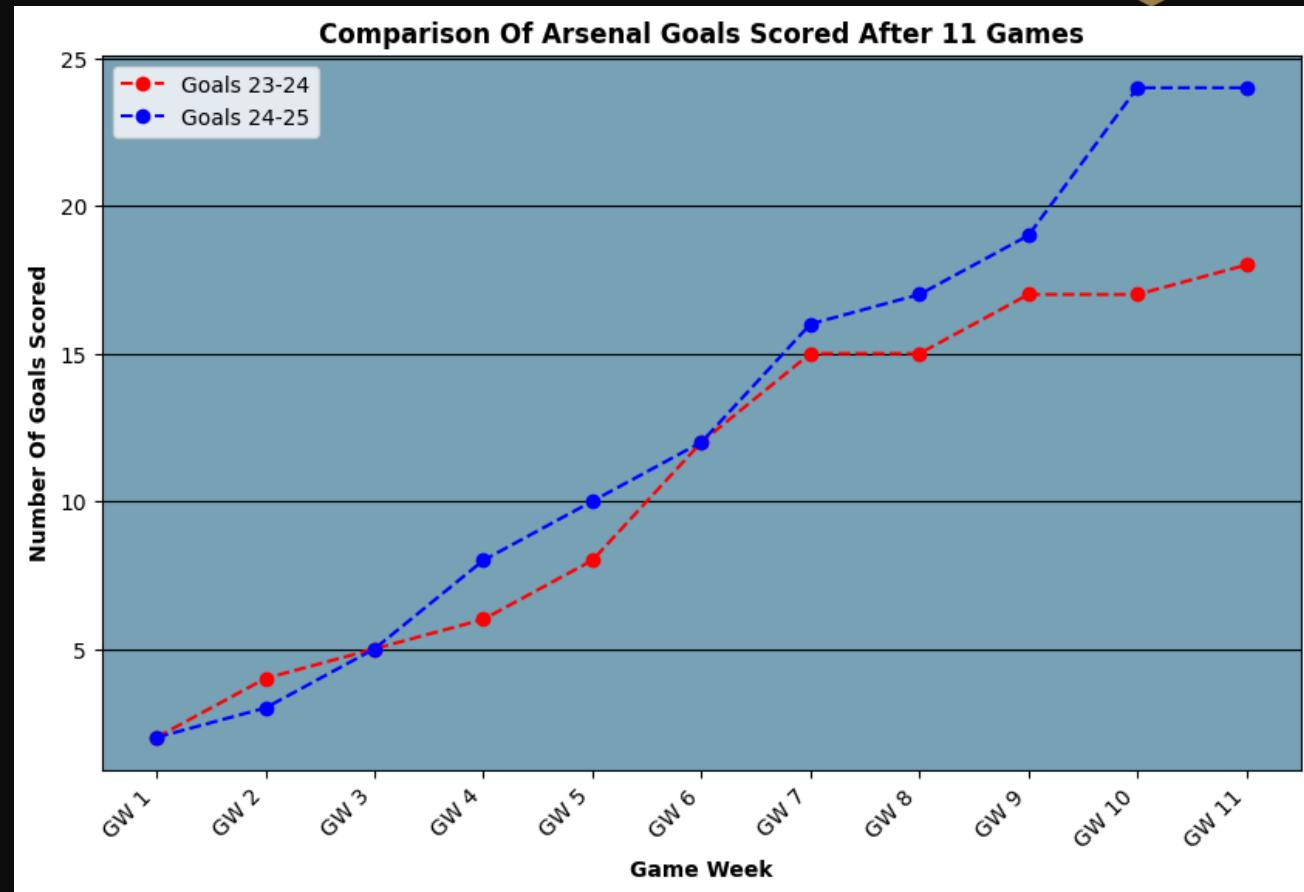

Topic - Goals Scored Compared Over 2 Seasons

- Comparing Output Of Goals, From The Same Number Of Game Weeks, Across 23/24 & 24/25 Season.

- Deduction Of Data

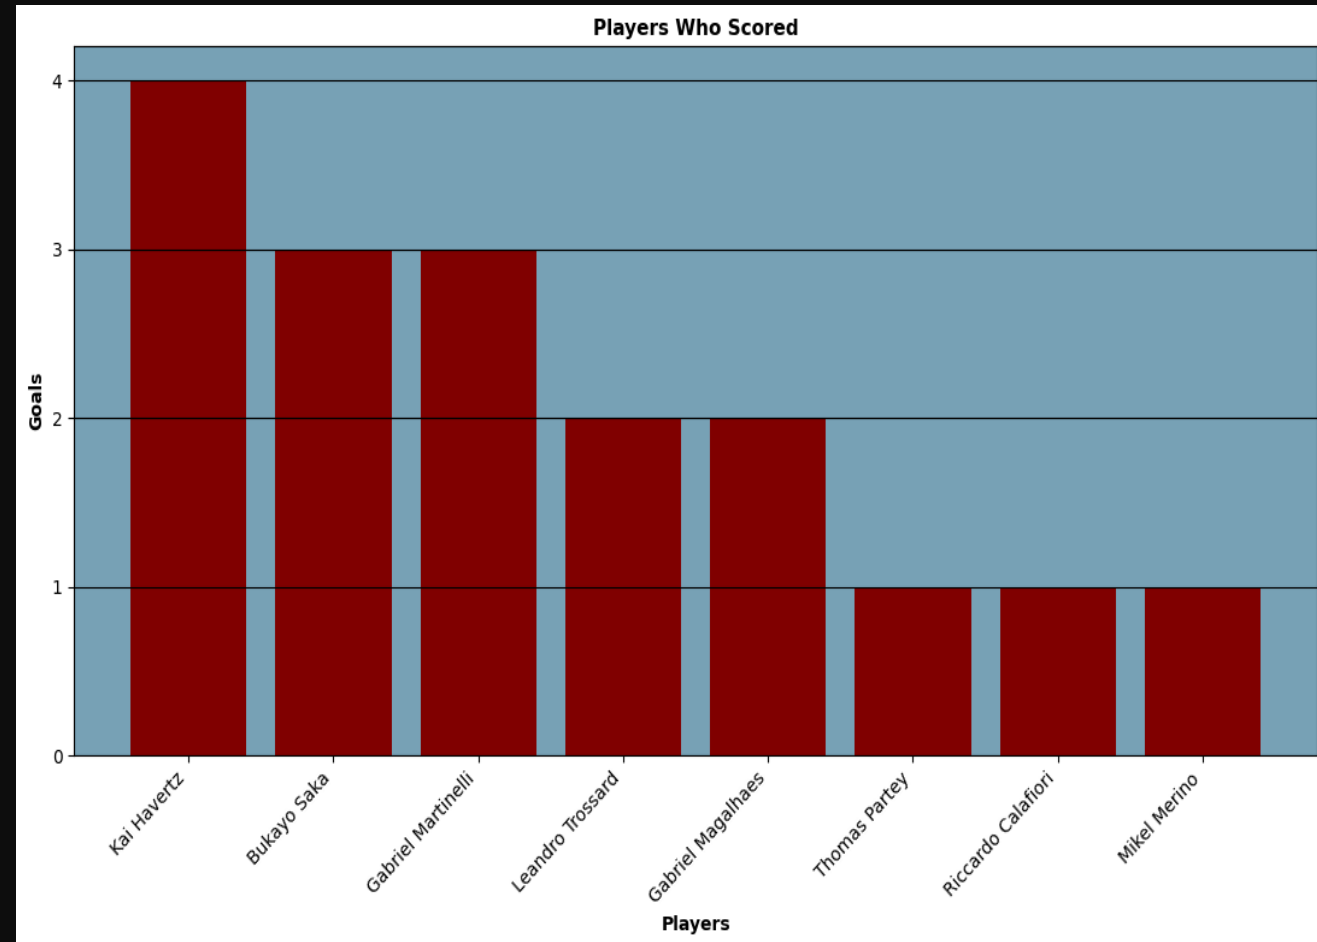

- Above Or Equal By All But One Game Week Compared To Previous Season
- Improved From Game Week 7 From Previous Season
 - Team Are Better 'Gelled Together'
 - New Recruits
 - Different Tactics

Topic - Goals Scorers

- Players Who Scored.
- Deduction Of Data
 - o Majority Of Goals Came From Havertz, Saka & Martinelli.
 - o Although Goals Came From Other Players, The Front 3 Attackers Were The Main Source Of Getting The Goals

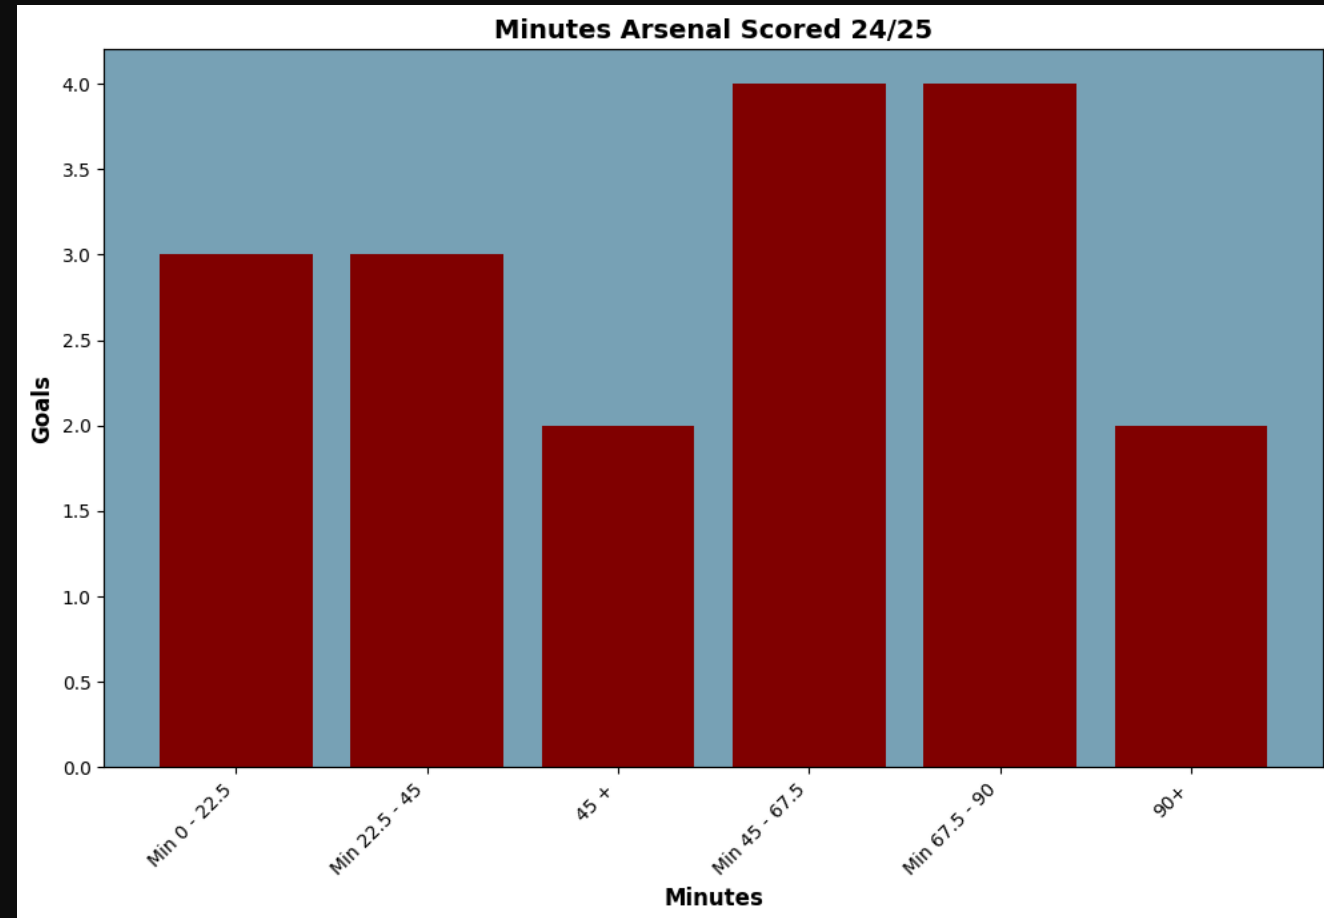

Topic – Current Season : Minute Of Goals Scored

- Visualising Minutes Goals Were Scored Across 11 Game Weeks
-

- Deduction Of Data
 - Second Half Has Highest Amount
 - Team 'Gets Going' In The Second Half
 - Play Causes Opponents To Get Tired
 - Figure Opponents Game Plan Out
 - 4 Goals In Added Time
 - Don't Drop Off Leading To The Break / End.
-

Topic – Current Season : Minute Of Goals Scored Percentages

Minute	Total Goals	Total Goal Percentage
Min 0 - 22.5	3	16.7
Min 22.5 - 45	3	16.7
45 +	2	11.1
Min 45 - 67.5	4	22.2
Min 67.5 - 90	4	22.2
90+	2	11.1

Minute	First Half Goals	First Half Goal Percentage
Min 0 - 22.5	3	37.5
Min 22.5 - 45	3	37.5
45 +	2	25.0

Minute	Second Half Goals	Total Goal Percentage
Min 45 - 67.5	4	40.0
Min 67.5 - 90	4	40.0
90+	2	20.0

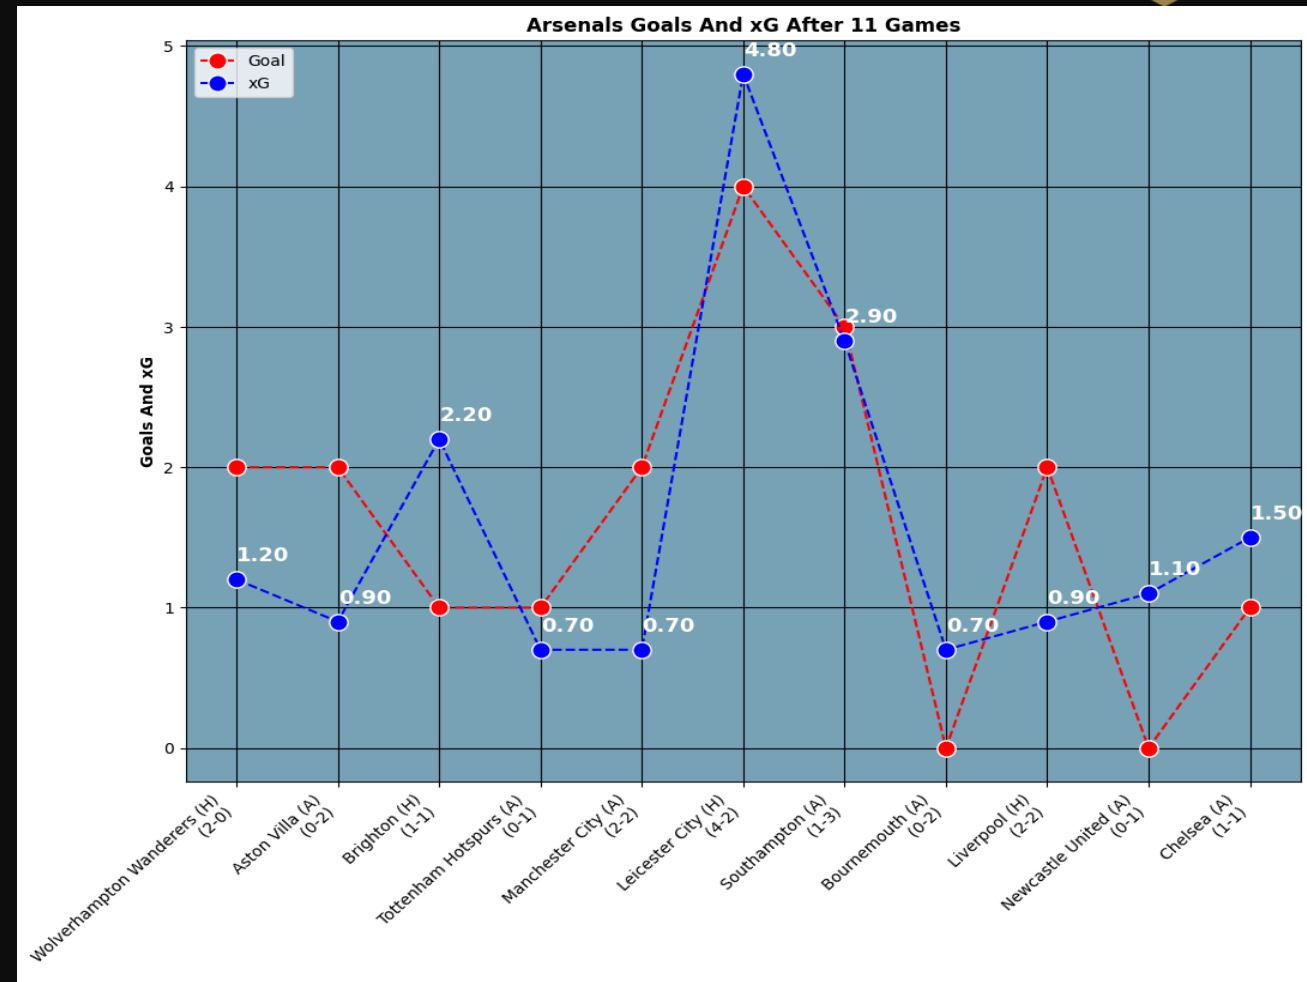

- Number Of Goals Per Half Are Mostly The Same
- No Outright Time Slots
- More Focused On Second Half
- Looking For Goals At All Opportunities

Topic – Current Season :

Goals And xG

- Goals Scored And xG Accumulated In Each Of The 11 Games.
- Deduction Of Data
 - xG Is Quite Low – 5 under 1.0
 - xG Points Higher Than Actual Goal
 - In Control & Not Taking Chances
 - Opponents Have ‘Parked The Bus’
 - xG Points Below Actual Goal
 - Long Distance Goals
 - Set Piece
 - Quick Break Away When Not In Control Of The Game

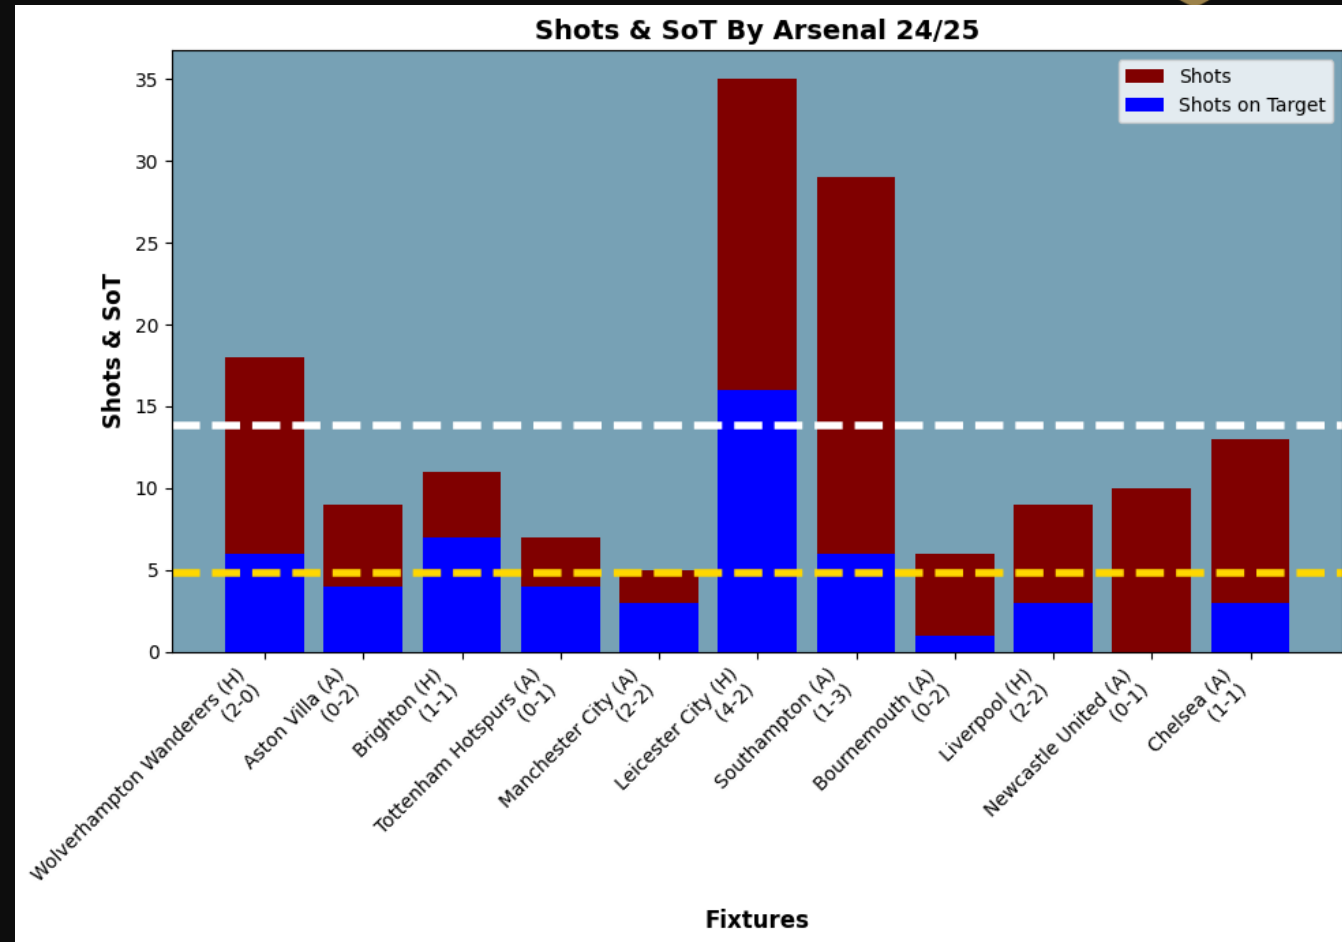

Topic – Current Season :

Shots & SOT

- Number Of Shots Taken And Number Of Shots On Target
- Deduction Of Data
 - o Majority Of Shots Taken Per Game Is Around 10
 - Constantly Challenging The Goalkeeper
 - Searching For A Goal
 - o Very Few Shots On Target Close Compared To Shots
 - Not Clear-Cut Chance (1 v 1)
 - Long Distance

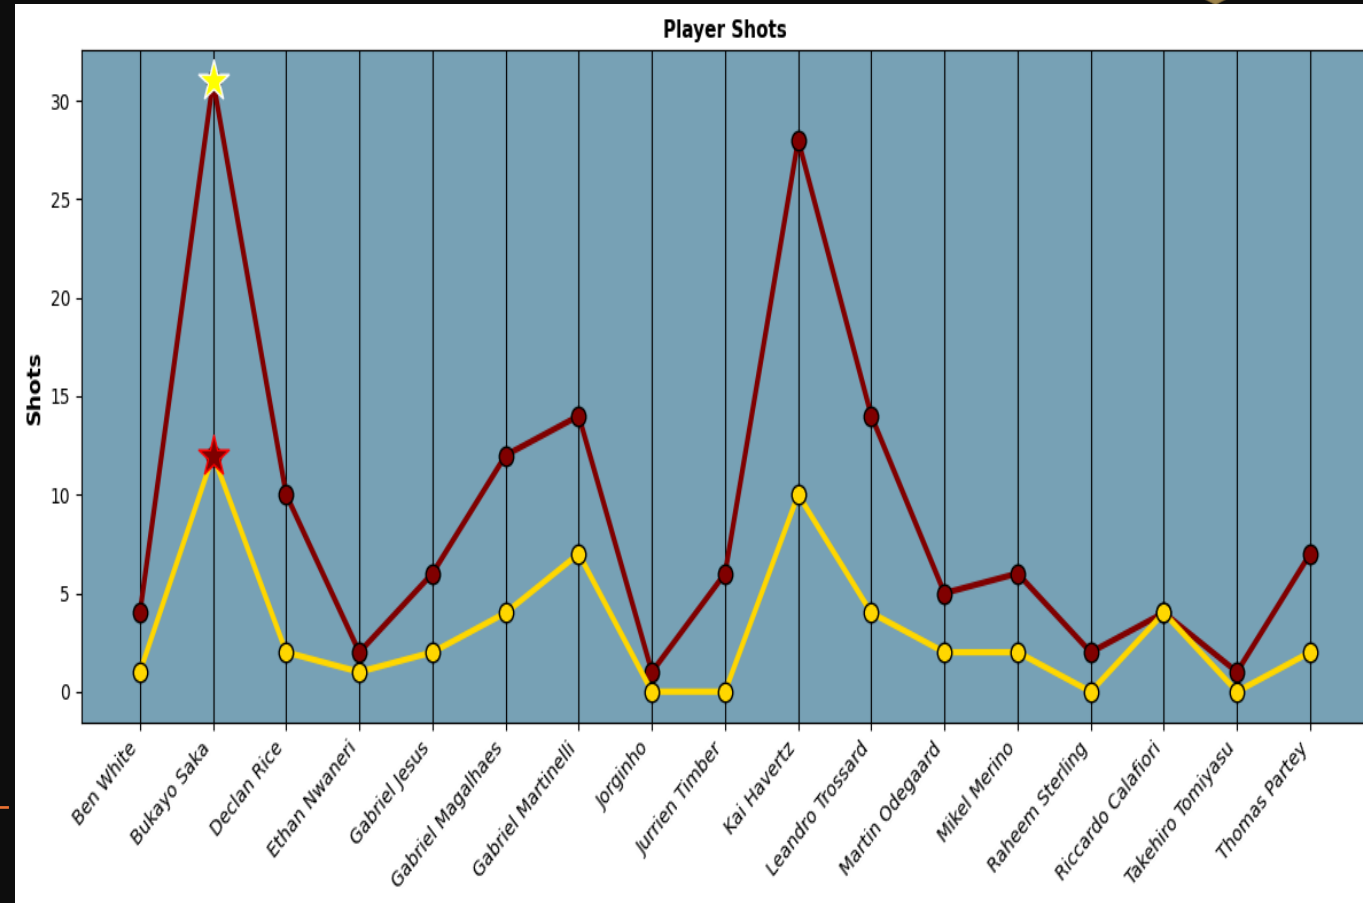

Topic – Current Season :

Total Player Shots

- Number Of Shots Taken And Number Of Shots On Target Per Player.
- Deduction Of Data
 - Saka & Havertz Are Well Infront Of Their Teammates
 - Depended On To Grab Goals For The Team, So They're Presented And Take Every Opportunity.
 - Conversion Rate Should Be Higher To Make The Most Out Of Chances And Control Games.

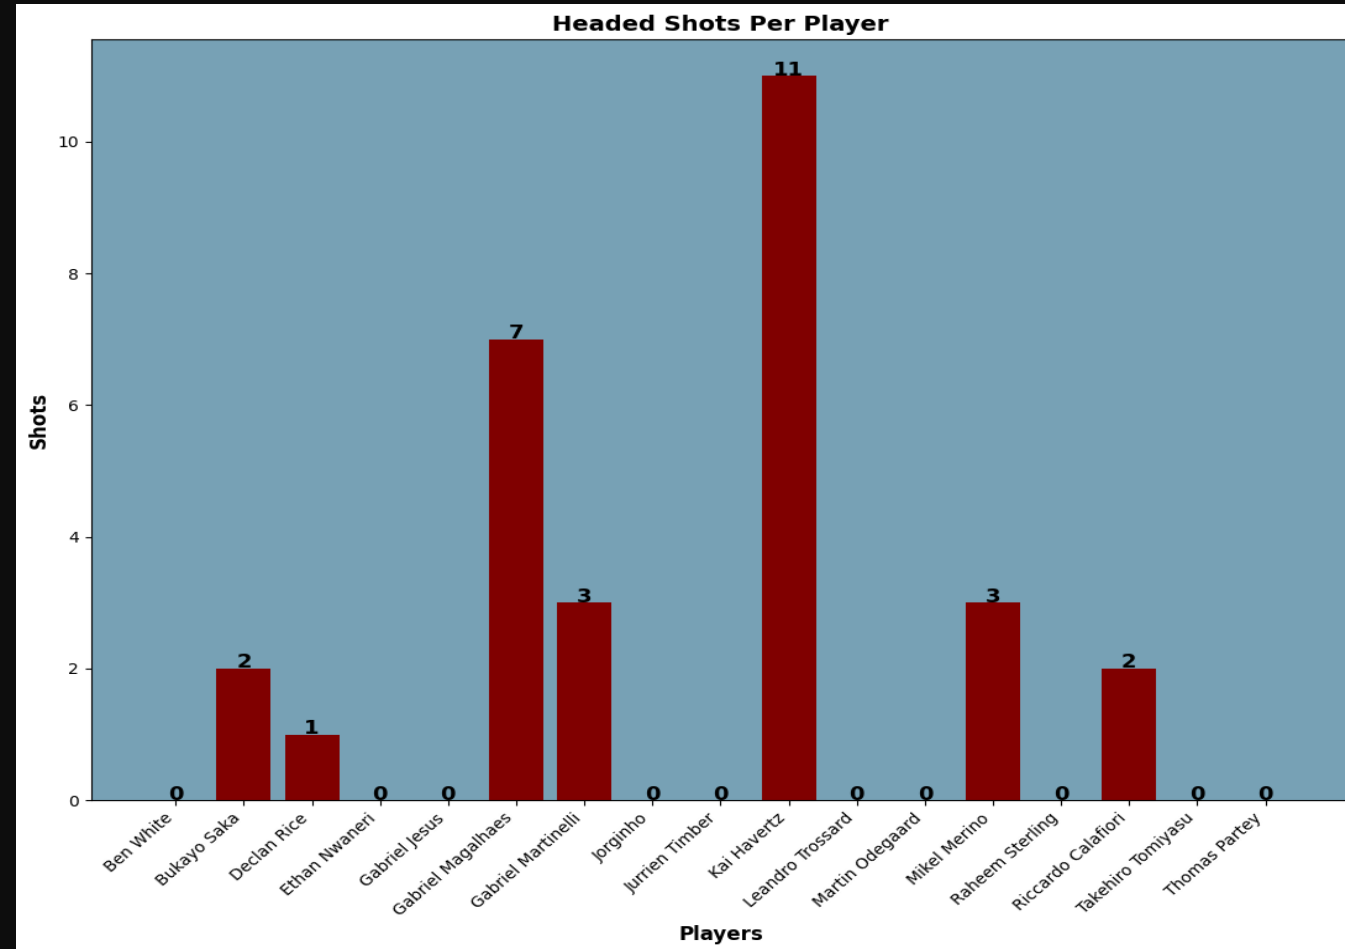

Topic – Current Season :

Headed Shots

- Number Of Headed Shot Per Player.
- Deduction Of Data
 - Havertz Clear Chosen Target
 - 6ft 4
 - Gabriel Is 2nd Closest, 6ft 2
 - Targeting Tallest Players To Gain Best Advantage From Set Pieces And Crosses

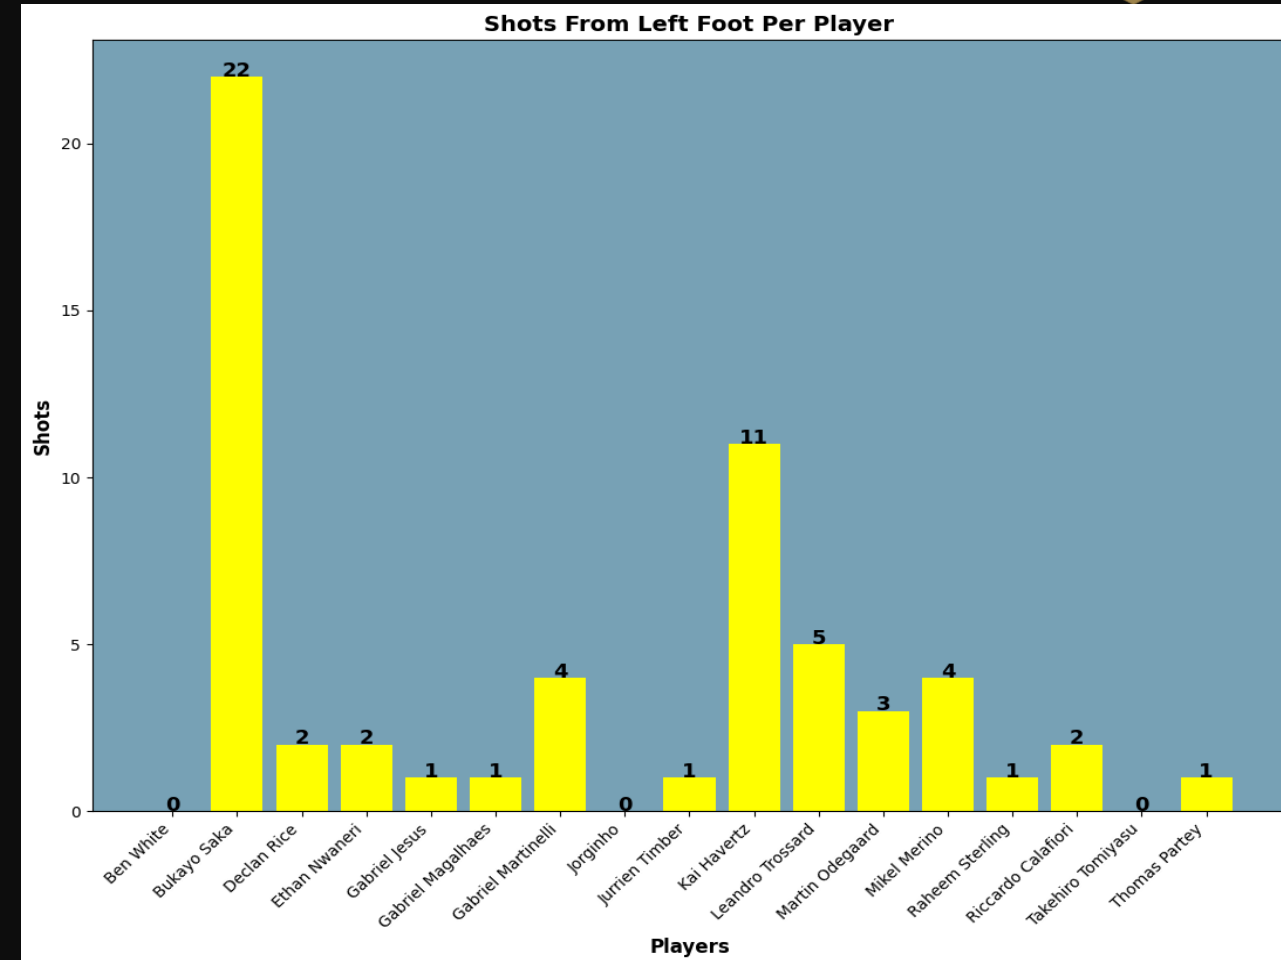

Topic – Current Season :

Shots From Left Foot

- Number Of Shots Taken With The Left Foot Per Player
- Deduction Of Data
 - Saka Most Capable Of This:
 - Plays RW, Cuts Inside Defenders / Along Edge Of The Box To Shoot
 - Havertz 2nd Highest As He Most Likely Roams Around The 2 CB To Move Them And Pick Up Dangerous Positions

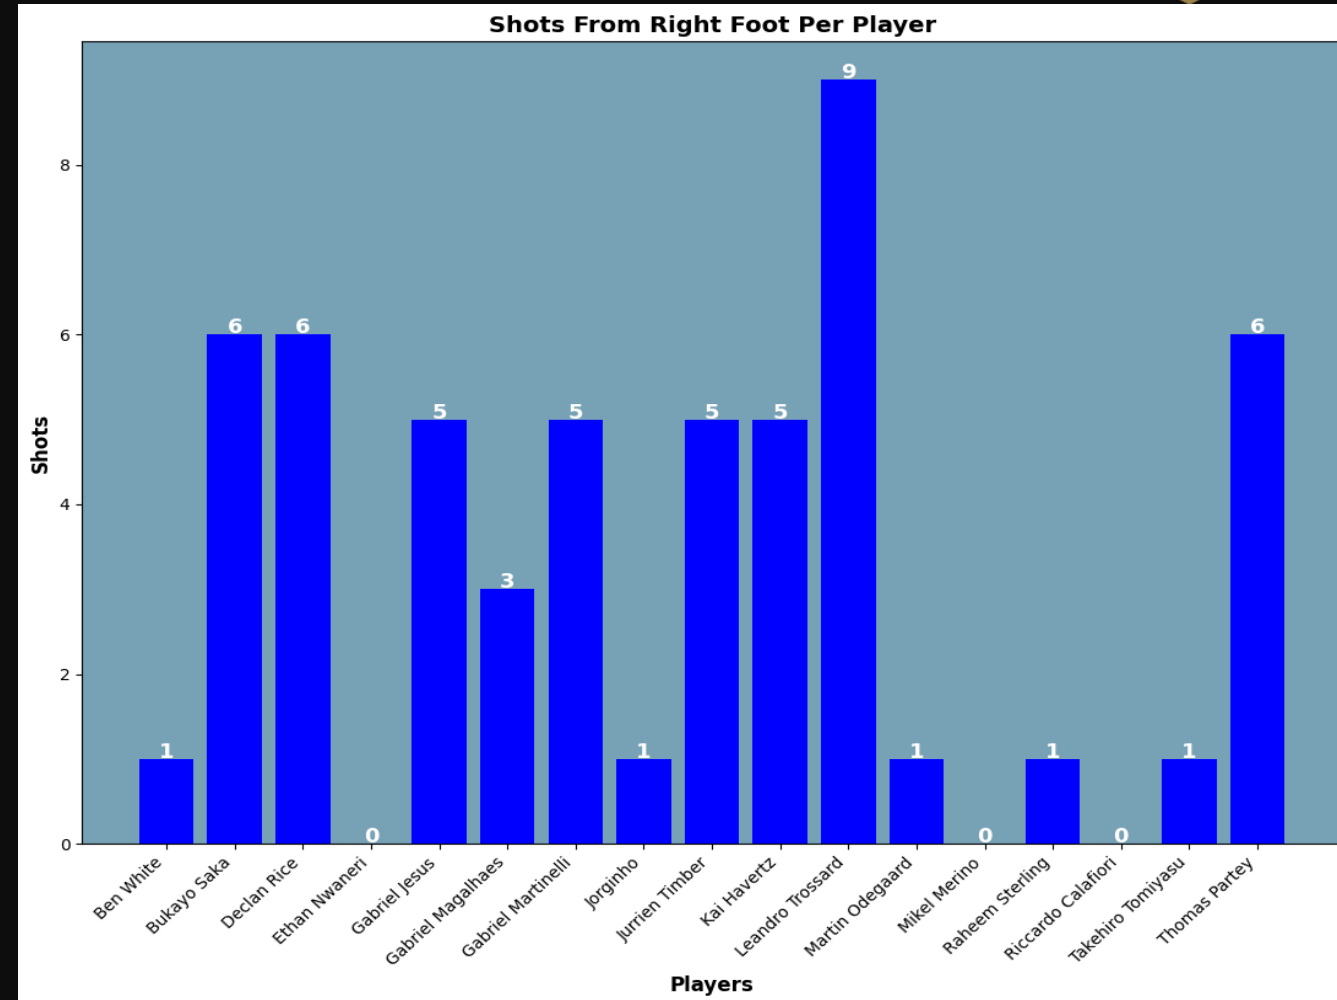

Topic – Current Season :

Shots From Right Foot

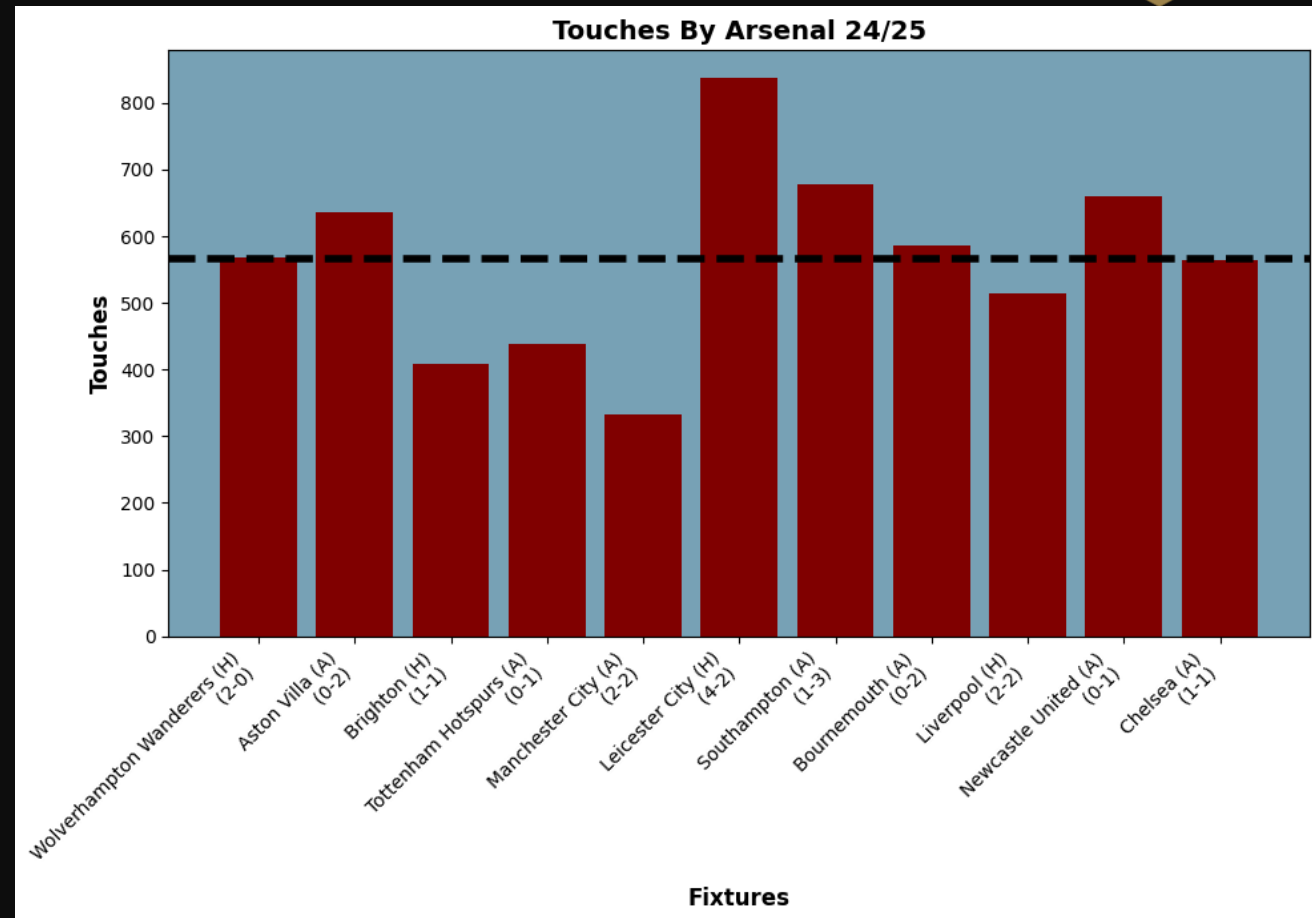

- Number Of Shots Taken With The Right Foot Per Player
- Deduction Of Data
 - Trossard Favours The Right:
 - Plays LW Cuts Inside Defenders / Along Edge Of The Box To Shoot
 - Same As Saka, Both Wingers Told To Cut Inside
 - Majority Of The Team Favour Right Footed Shots:
 - More Opportunity At Goal With More Shot Takers
 - Harder For Defenders To Remember Which Player Prefers Which Foot

Topic – Current Season : Touches

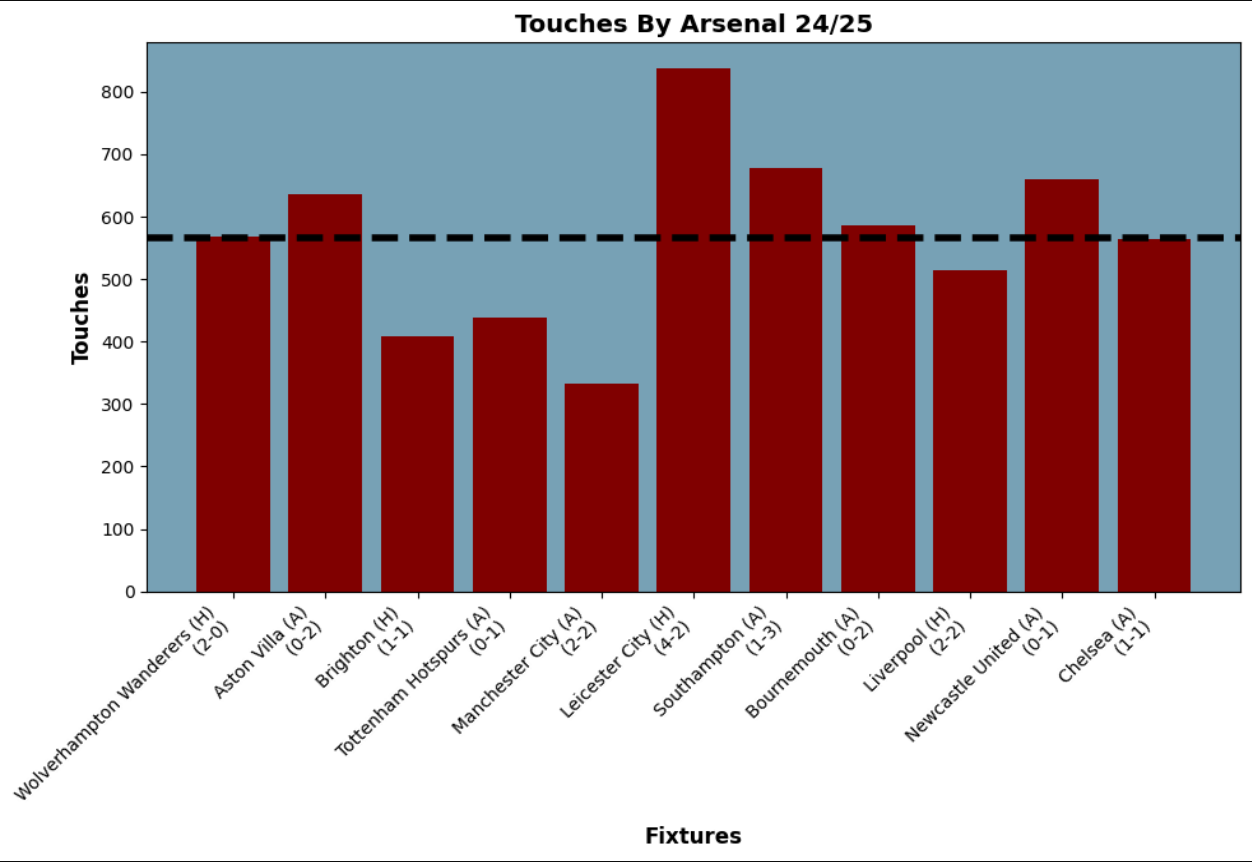

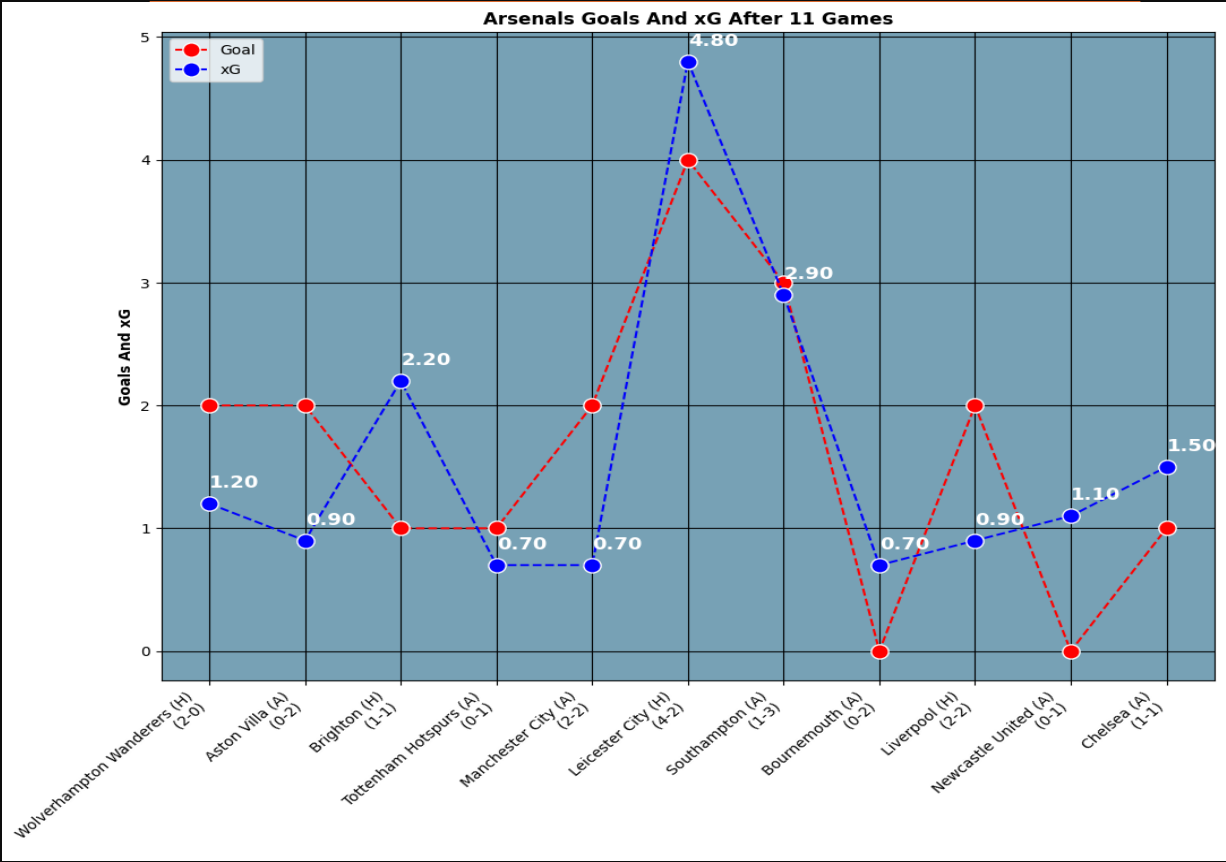

- Number Of Touches In Each Fixture Played.
- Deduction Of Data
 - Average Touches 500 +
 - Control The Game
 - Control Speed Of Play
 - Draw Defence Out Of Shape
 - Win Set Pieces

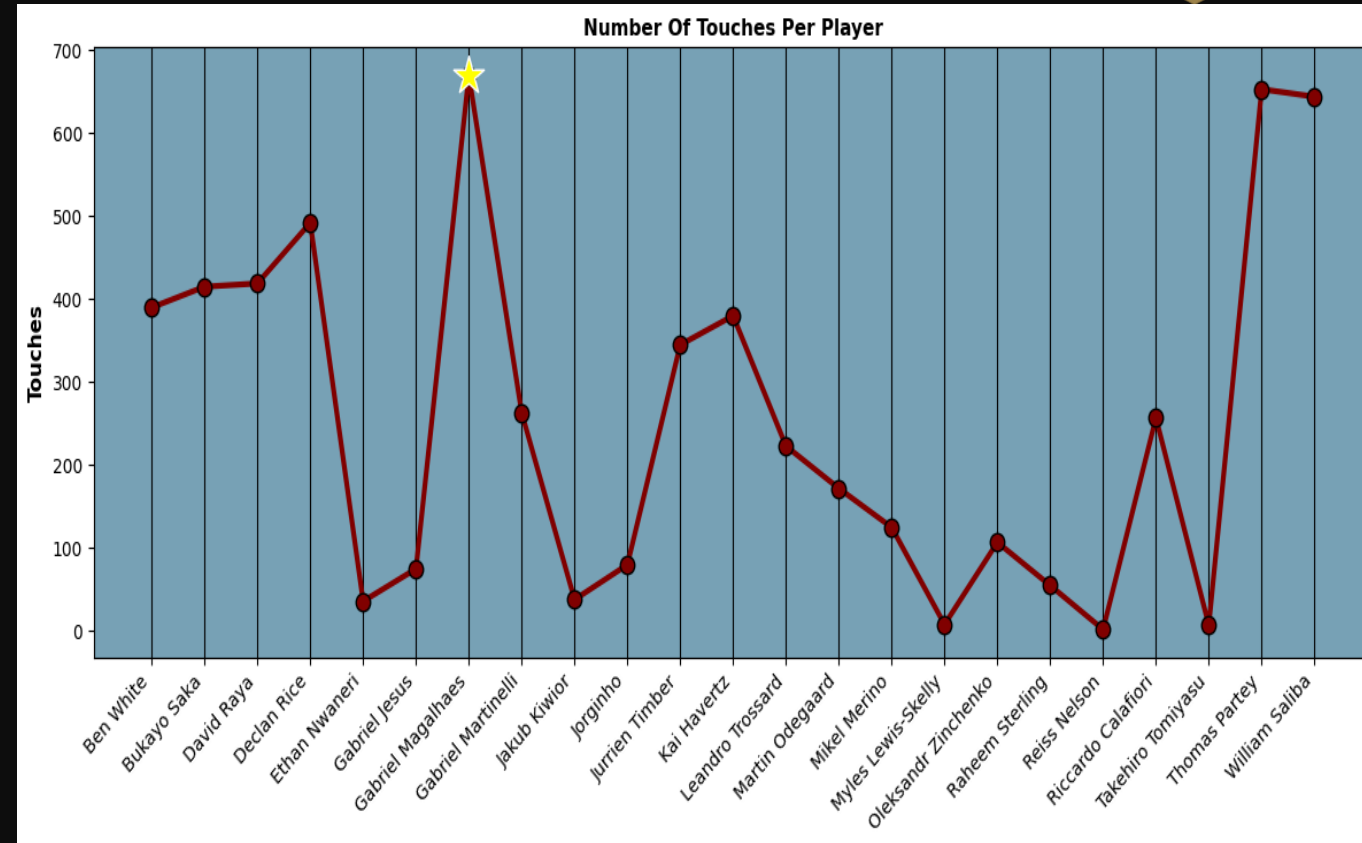

Goals And xG / Touches Graph

Topic – Current Season : Touches

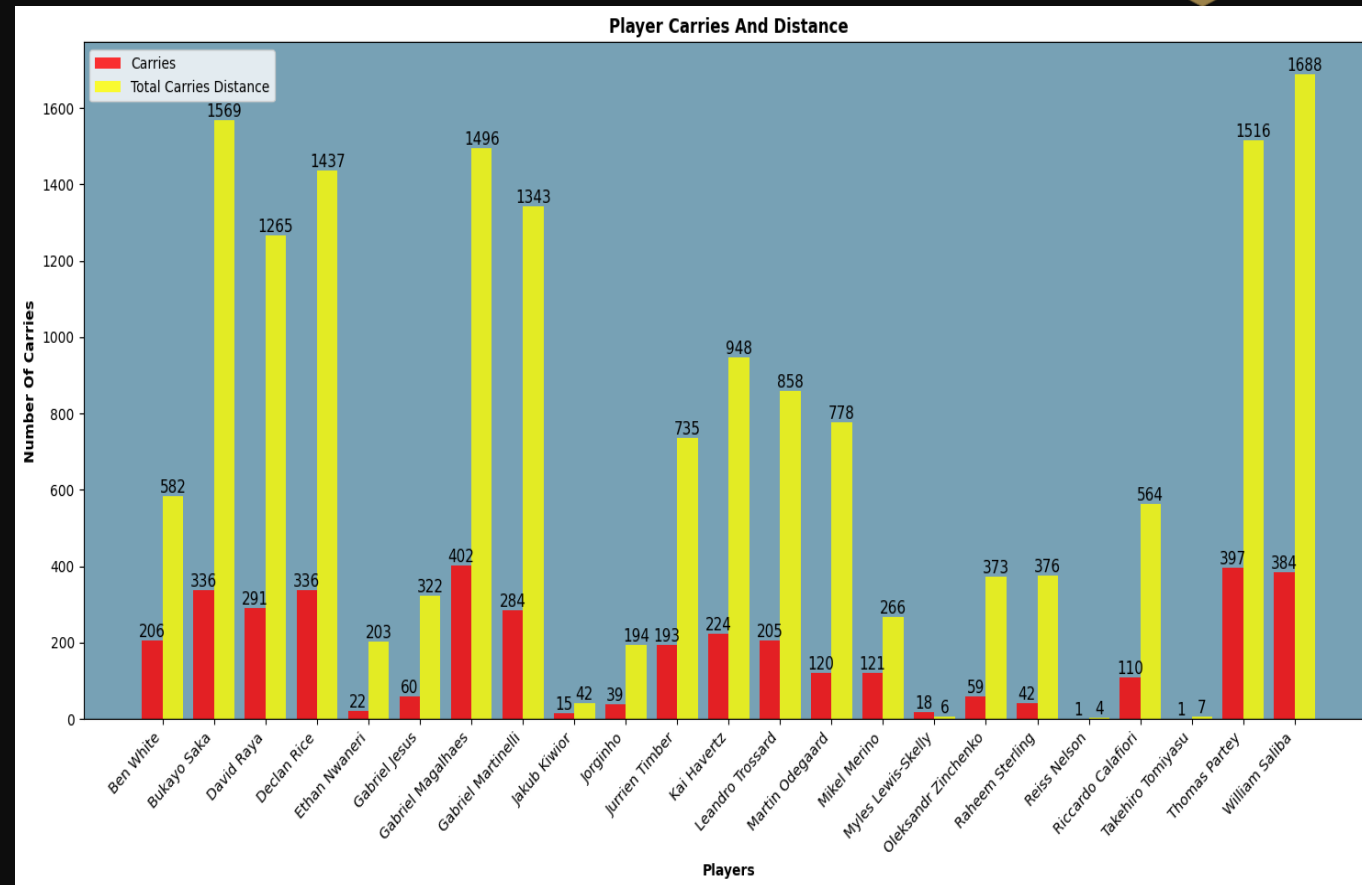

- Number Of Touches Per Player.
- Deduction Of Data
 - CB And CDM Have The Most Amount Of Touches
 - Control The Game
 - Most Calm
 - Able To Beat Press
 - Make Correct Decisions

Topic – Current Season : Touches

- Number Of Carries And Total Distance Carried By Each Player
- Deduction Of Data
 - Back Line Of CB & CDM Have Highest Carries And Distance
 - Want To Play Through Press
 - A Lot Of Players Get On The Ball
 - Keeps Opponents Guessing
 - More Chance Of Breaking Opponents Line

The background of the slide features a large, semi-transparent Arsenal football club crest. The crest is red with a gold border and a gold cannon wheel in the center. The word "Arsenal" is written in white across the top of the crest.

Arsenal

Overview

- Goal Scorers
- Improved Goal Rate From Season Before
- More Successful At Scoring In 2nd Half
- Not Dominated Many Games Compared To Goals Scored
- Get On The Ball More Than Opponents
- Look For Multiple Shooting Opportunities
